Re: LightSquared Subsidiary, LLC  
Ex Parte Communication. 1B Docket No. 11-109  
IBSF File No. SAT-MOD-20101118-00239

Dear Secretary Dortch,

I believe that LightSquared should not be allowed to go forward until it is shown that their plan will not interfere with high-precision GPS. I believe that not only the surveying industry will be harmed, but so will the hundreds of thousands of people who use the data surveyors produce. As a user of high-precision GPS on a daily basis, I **oppose** LightSquared's request (which ignores the recent independent test results) to affirm its license and its request to go forward with its plan.

Thank You for your support,

*Stephan Barott*
